...dependable selections for an unsure future.

Disability Income Protection

Nearly 60% of injuries happen off the job, which means they are not covered by Workers' Compensation.² If you were disabled today, how would the taxable \$800 a month from the State Basic Plan take care of your Family? How would you maintain your standard of living? Both the Basic and Supplemental disability plans can provide the source of income to help you continue to pay normal living expenses, but not when other income will be subtracted from your payments.

Important Other Benefits

Student Loan Protection

The Student Loan Protection Rider reimburses you for student loan payments - no matter how many you have, or how many institutions they're with.

- Coverage up to \$2500 per month
- You can tailor coverage for a specific debt, \$250 - \$2500 per month
- Duration - 10 to 15 years
- No documentation is required

Retirement Protection Plus (RPP)

Retirement plans are one of the most important benefits an you can use to create a healthy retirement income. However, should you become too sick or injured to work, generally all retirement saving stops - because neither the employee nor the employer can make contributions if the employee is not actively at work.

RPP helps mitigate this risk by replacing the contribution you would have made to a defined contribution plan while totally disabled.

A monthly benefits insuring 100% of your retirement plan contributions, including any employer match, will be paid into a trust established for your benefit. You direct how benefits are invested and you can begin accessing them at age 65.
